Health and safety
Food safety and food defence

Guide to the rules of conduct to be respected
within the company area

Simone Gatto

You are welcome!

Please pay attention to our rules for the protection of your health and safety.
You are entering a plant producing food stuff,
for which it is also necessary not to create risks of pollution for the product,
in order to protect consumers' health.

Simone Gatto

Precautionary Statements

Visitors and external maintainers must declare that they have **not** recently been to countries where they may have contracted **infectious diseases, transmissible** to people and/or food (e.g. typhoid or paratyphoid fever).

Visitors must declare that they **have no current health conditions** such as: diarrhoea and/or vomiting (at present or in the previous seven days), conjunctivitis with mucopurulent secretion, ear secretion, nose secretion.

Simone Gatto

Smoking is not permitted
all over the plant

It is not allowed to wander
around the plant on your own!
You must always be accompanied
by a Simone Gatto employee

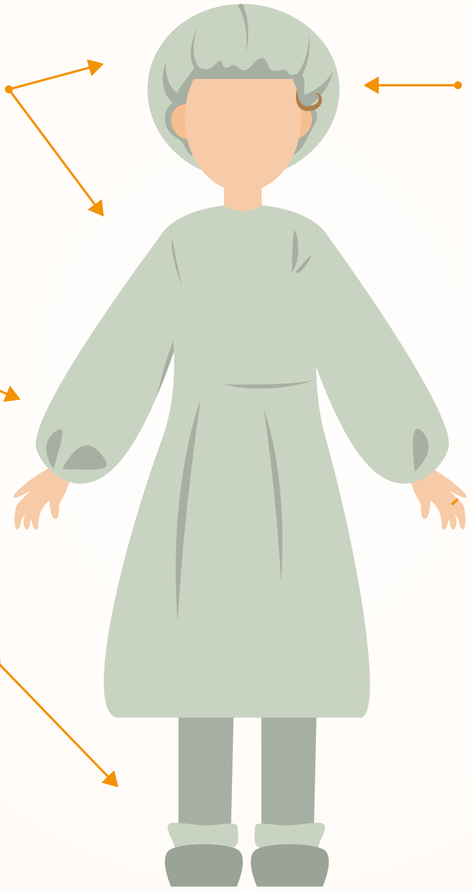
It is not allowed to consume
food and drinks
in the production areas

Simone Gatto

Before entering the production's areas

Wear a disposable **gown** and **cap**

Insert your **hair** well **inside** the headdress



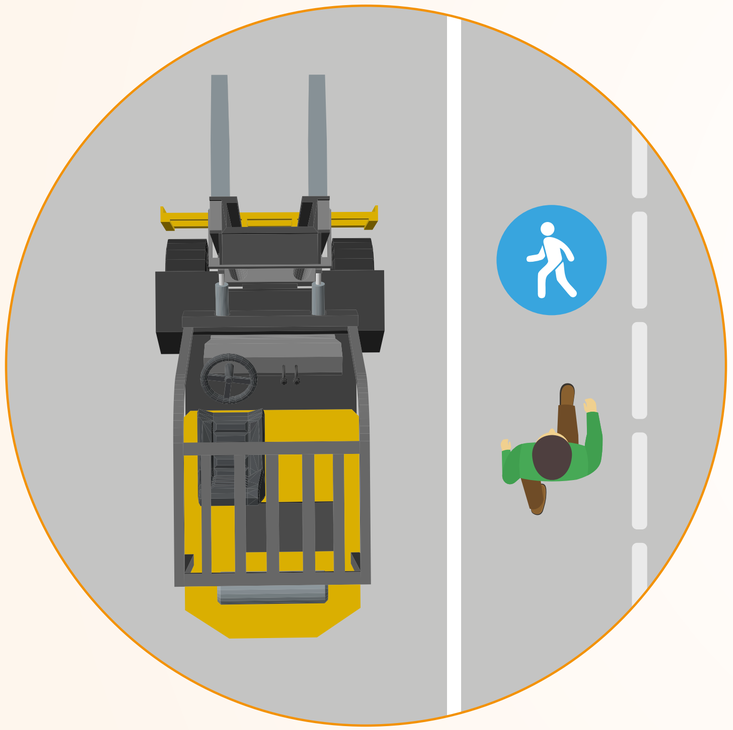
Make sure that the gown **fully covers** the arms

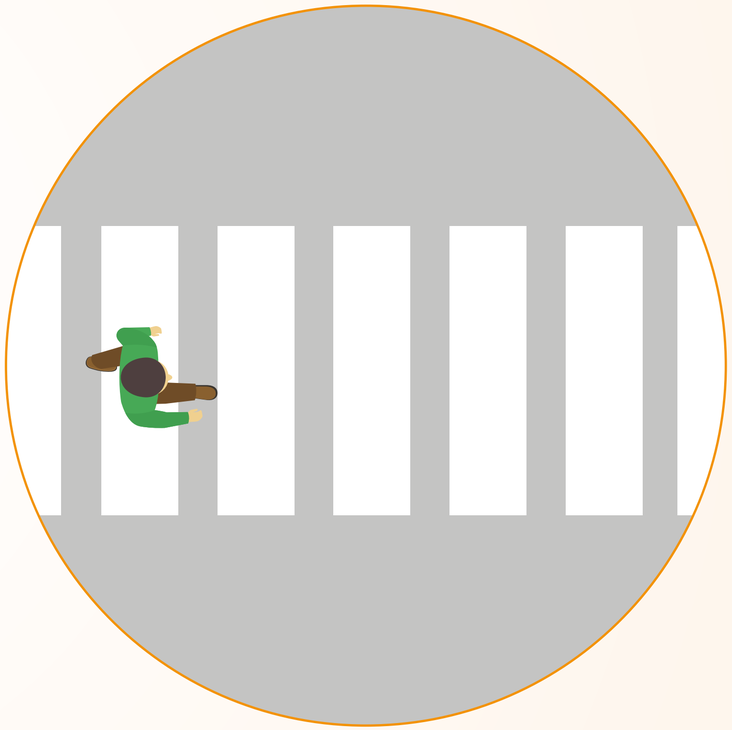
Do not wear jewellery and watches (except for your wedding ring and health bracelets)

Do not wear clothes that can get in the way or get caught on equipment

Simone Gatto

In outdoor areas, use the corridors for pedestrians and pedestrian crossings to avoid dangers due to the presence of moving vehicles

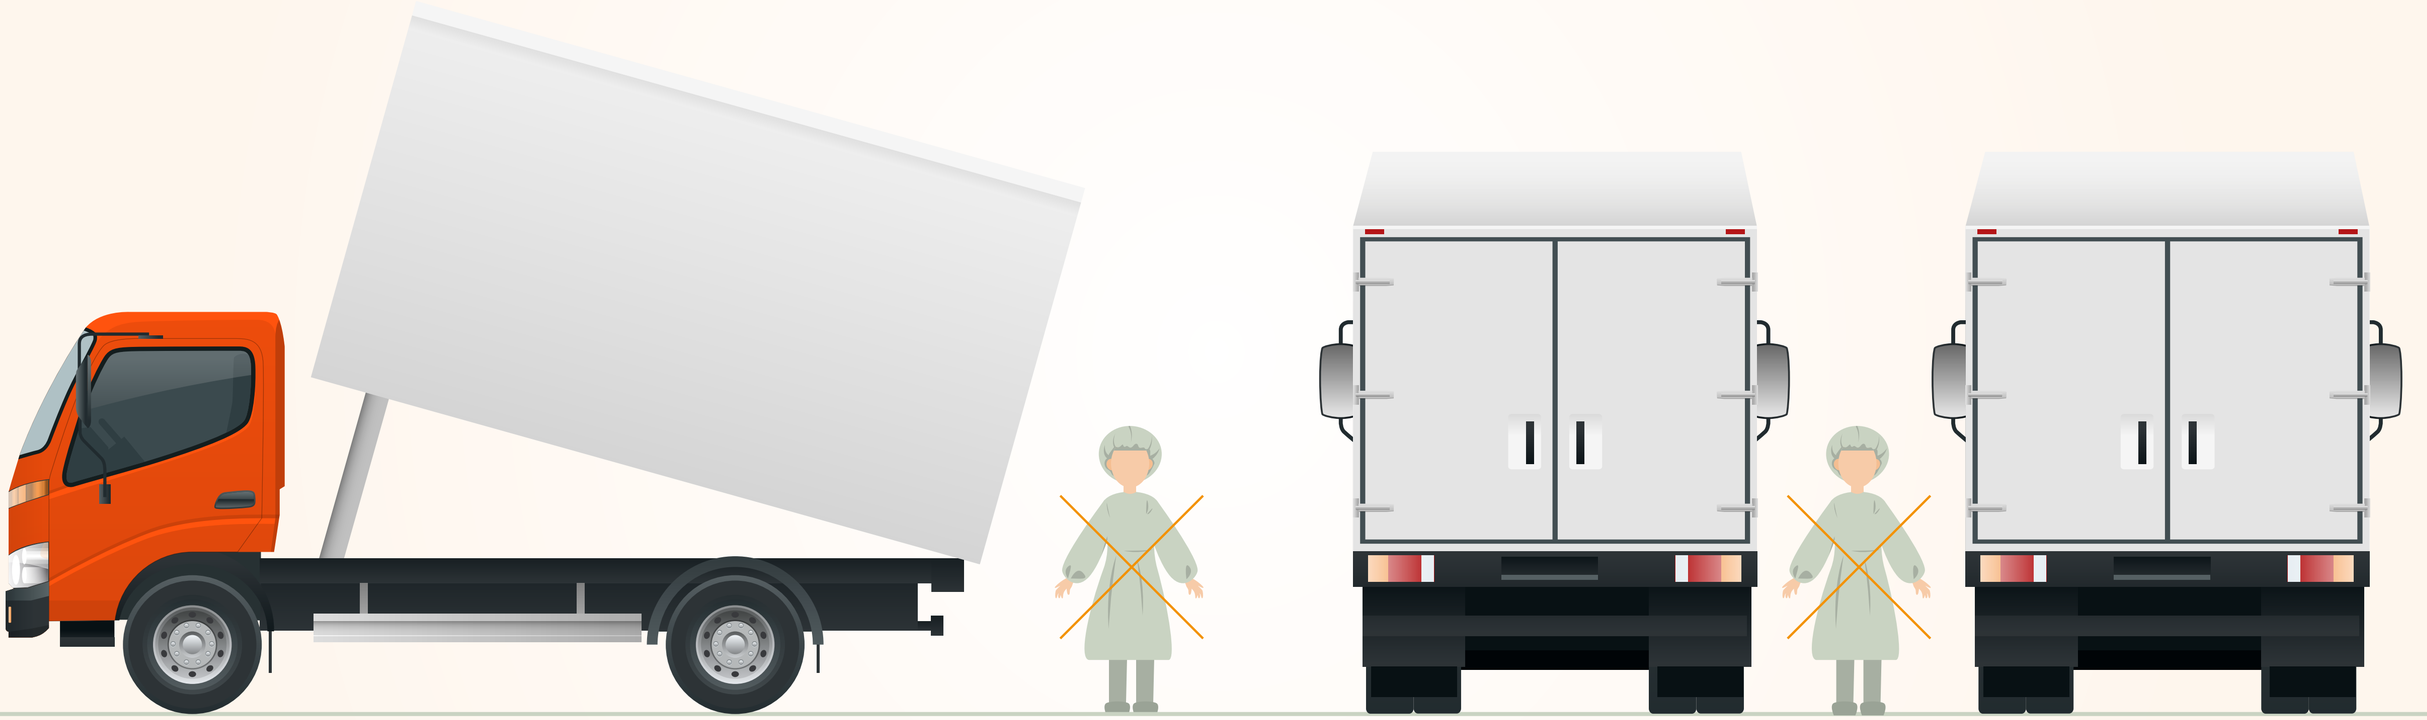




Pay attention to the "buzzer" coming from forklifts in transit or manoeuvring and keep your distance from all moving vehicle

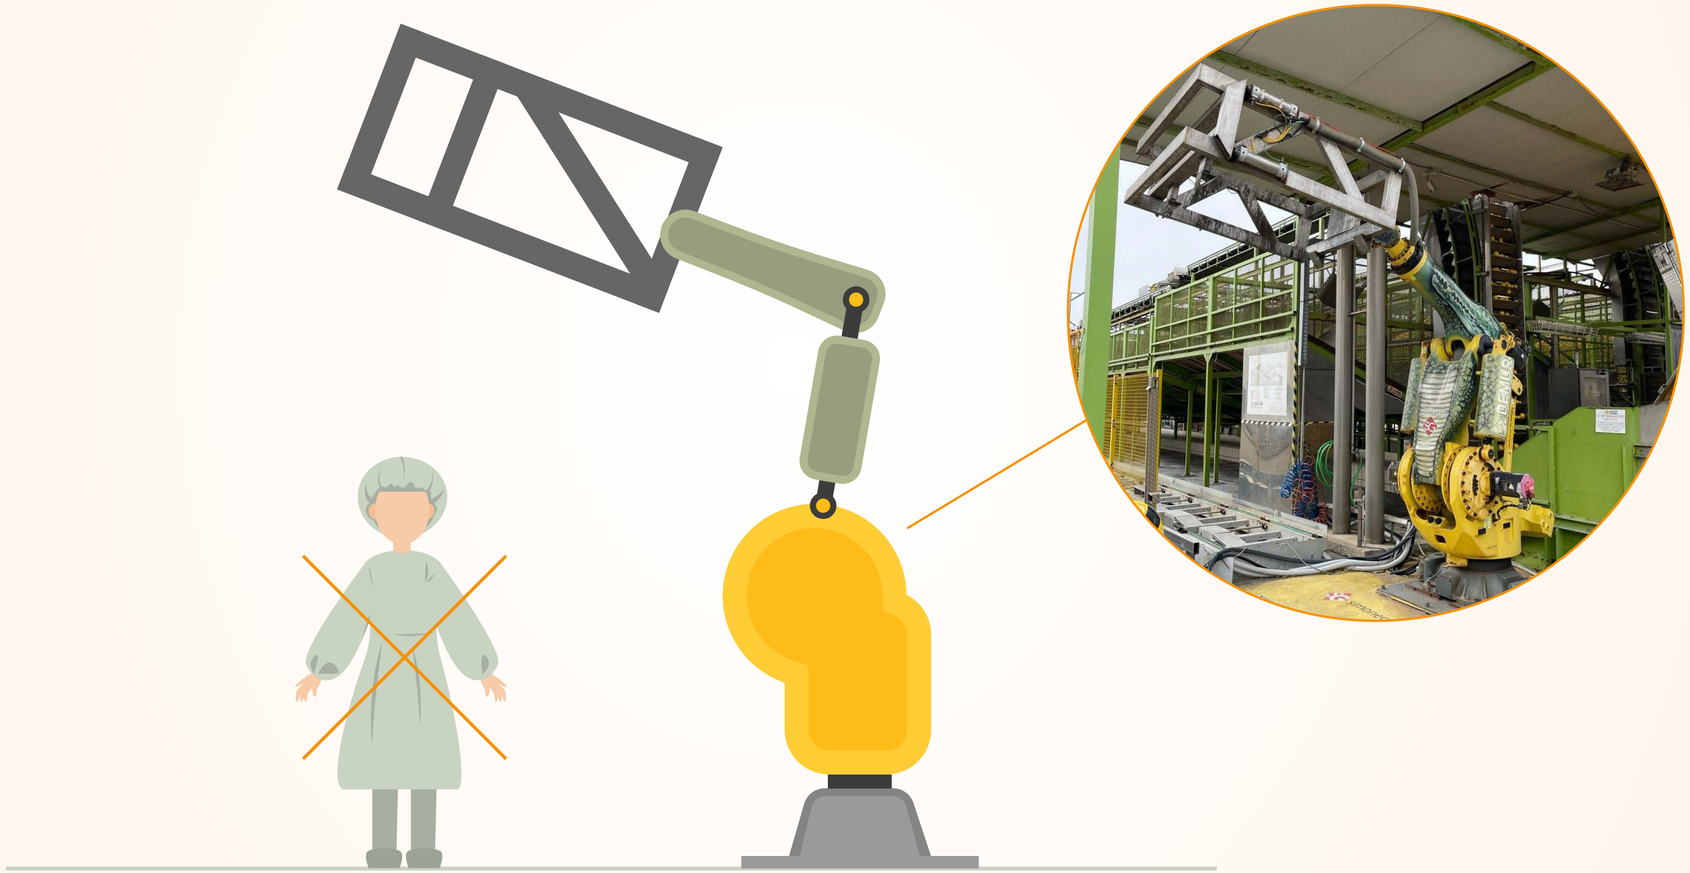
Simone Gatto

Do not approach the vehicles during unloading and do not pass through corridors created by trucks during the fruit unloading phase



Simone Gatto

Do not approach the bins tipping robot, even if safety photocells block the arm if they detect a presence



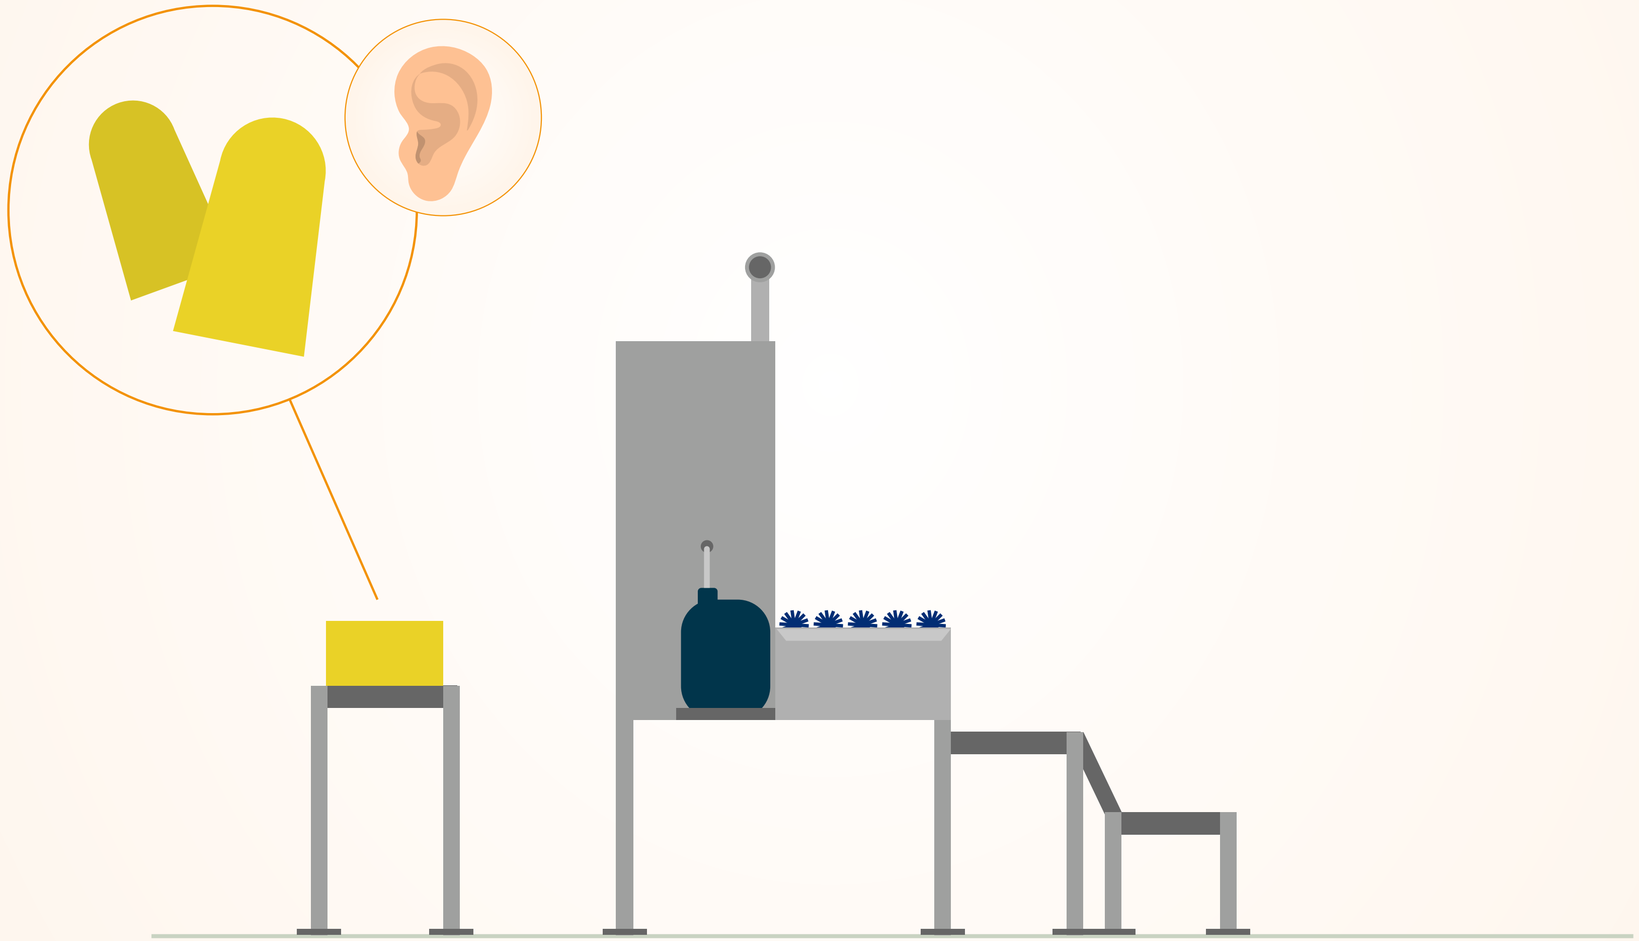
Wash the soles of your shoes in the sole washer located at the entrance of processing areas

To activate it, place your finger on the photocell of the handle

After washing, get off with caution

Simone Gatto

Disposable anti-noise caps are available alongside the sole washing machine, but not compulsory for the visitors since the exposure time to the decibels of the internal area is short



Simone Gatto

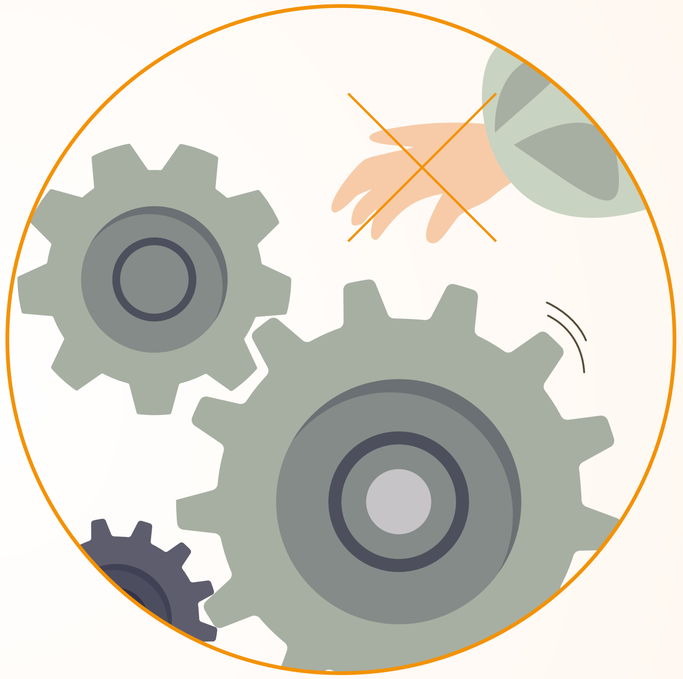
Pay attention to the floor and the presence of liquids that can make it slippery

Hold onto the handrail along the stairs and be careful of wet and slippery steps

Simone Gatto

Be careful!

Watch out to structural elements that can create danger! Mind your head!



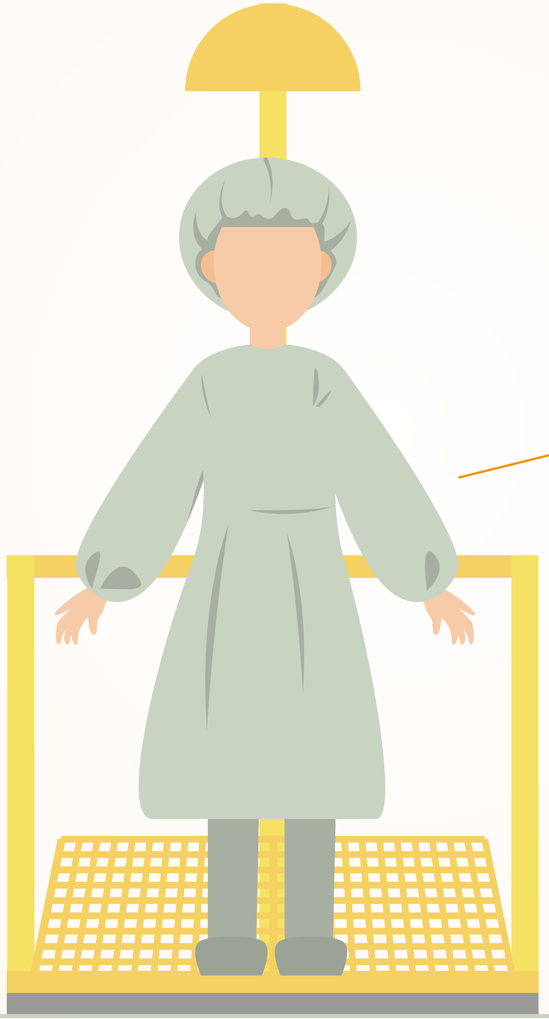
Do not touch moving elements of the machinery and do not get too close to the equipment

Simone Gatto

Watch out for specific signs, which warn of equipment reaching high temperatures

Simone Gatto

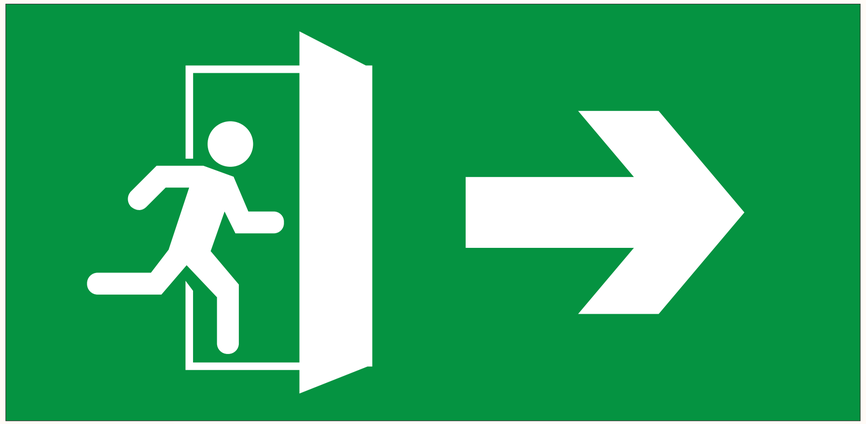
Emergency showers and eyewash facilities are provided



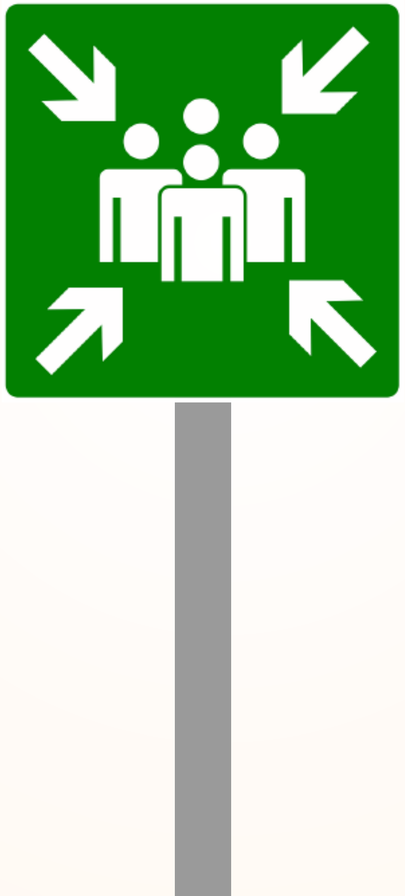
To activate them,
place your feet
on the footrests

Simone Gatto

Illuminated emergency exits are clearly indicated and visibly

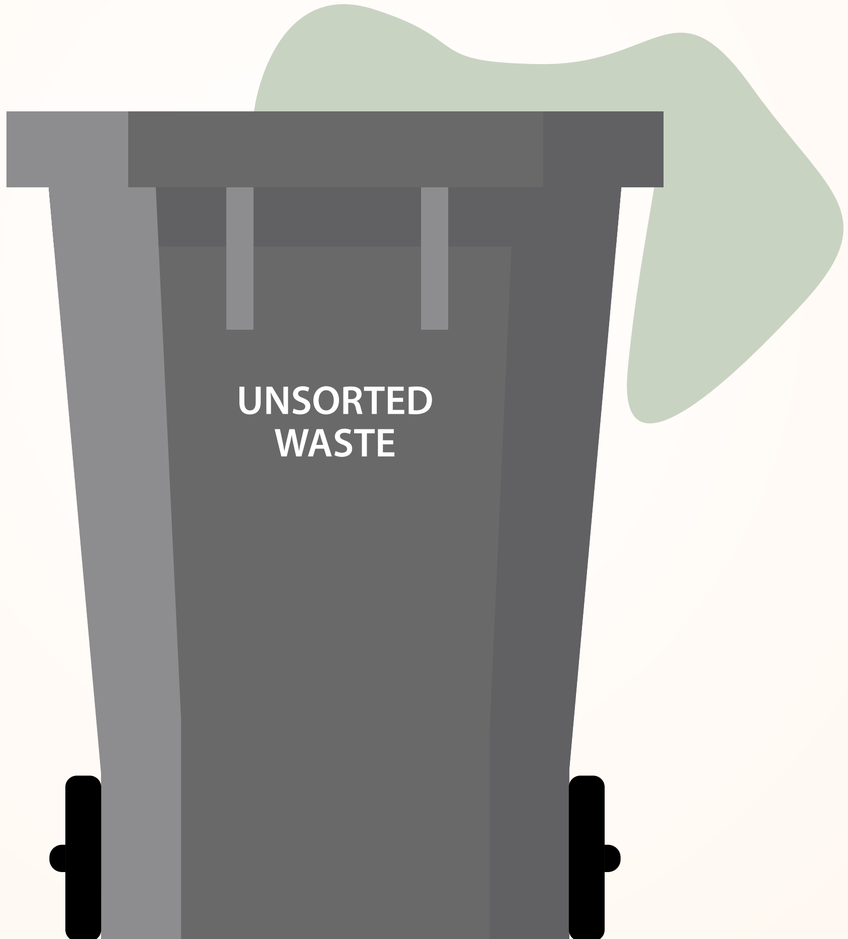


In the event of an emergency and if you hear a siren, follow the staff that will guide you to the assembly point in front of the company entrance



Simone Gatto

After the visit, place disposable gowns and caps in the undifferentiated waste



Thanks in advance for the attention that you will have during your visit to our factory.
The staff is available for any clarification
